

13004

**Model 5 Pre-set Mechanical Torque
Wrench 1/4" Female Hex Adjustable
1 - 5 N·m**

PRODUCT DETAILS

- Non-length dependent; the Model 5 remains accurate regardless of hand position
- Supplied in a storage case which allows space for the storage of additional drive bits
- The 'P' type version prevents unauthorised alteration of torque setting (no external calibration equipment is required to set the Model 5)
- Coloured end seals are provided to identify the wrench to a particular operator, torque setting or calibration period
- On request 'P' Type wrenches can be set, marked with the setting and certified for production line applications requiring a sealed torque setting
- Accuracy to $\pm 6\%$ meets the requirements of ISO 6789-1:2017
- If a pre-set has been requested the tool will be supplied with a Declaration of Conformance
