

11086

SL0 Pre-set Mechanical Torque Wrench with Ratchet 3/8" Square Drive 1 - 20 N·m / 10 - 180 lbf·in

PRODUCT DETAILS

- Durable, reliable and accurate mechanism
- Clicking system triggers a tactile and audible signal
- The 'P' type version prevents unauthorised alteration of torque setting
- On request 'P' Type wrenches can be set, marked with the setting and certified for production line applications requiring a sealed torque setting
- Moulded grip aids correct hand location and operator comfort
- All tools feature a lock to prevent accidental adjustment of set torque
- High quality 72 tooth reversible ratchet allows use in confined spaces
- Accuracy to $\pm 3\%$ meets the requirements of ISO 6789-1:2017
- If a pre-set has been requested the tool will be supplied with a Declaration of Conformance
- Made in the UK
