Quality - Made
in Germany

Description ▼

- For face and copy milling
- Made of special steel - highly tempered
- High axial and radial run-out accuracy
- Milling body with uneven pitch for particularly smooth running and even cutting
- Base body and clamping shank form a single unit, resulting in a short overhang length and stable clamping
- No additional milling cutter arbor is used
- Special geometry for milling at high speed
- Economical, as the insert can simply be turned further when the cutting edge is blunt (can be used up to twelve times)
- Indexable inserts Ø 10 mm

Manufacturer

Optimum Maschinen Germany GmbH
