Description

BALANCER 22D 6-10KG RETRACTOR

Designed to improve operator ergonomics, whilst improving your production quality, Desoutter's range of reactionless balancers have a working load up to 200 Kg, and feature either nylon or steel cables, a safety chain as standard, and a 360° swivelling safety hook for isolated suspension. Additionally, the durable impact-resistant housing, in either plastic or aluminium, and integrated drum lock improve operator safety and boost your productivity.

Country of origin is HU. Customs tariff is 84251900

Benefits

- ★ Improve operator safety and working conditions, to reduce operator fatigue, down time, and boost your productivity.
- ★ Improve operator safety and working conditions, to reduce operator fatigue, down time, and boost your productivity.
