KEY FEATURES

- Connects ERS and ERPHT high torque nutrunners directly to CVI3 controllers — no extra conversion hardware required.
- Must be ordered with the tool for complete CVI3 system integration.
- Not compatible with TWINCVI3 controllers in synchronous mode.
- 3D / CAD files available in PVZ, CATPART, IGS, STP and PRT formats for integration planning.
- CE, UKCA and UL/CSA certified — released for Europe, UK and North America.
- Fully integrated into the Desoutter CVI3 ecosystem with tightening data capture and traceability.
