

## Tormek Jig Solutions

**Knife Jig**  
For most knives. Jig width 45 mm (1 7/8"). Long knives need to be stiff. Minimum blade length 60 mm (2 3/8"). Also for carver's draw knives.

For small knives see SVM-00 under Accessories

**Long Knife Jig**  
Suitable for long and flexible knives. The 140 mm (5 1/2") width of the jig stabilizes a thin blade. Minimum blade length 160 mm (6 1/4").

**Scissors Jig**  
For scissors of all sizes and shears. Also suitable for portable electric hand planer blades.

**Axe Jig**  
For carving and carpenter's axes. Max height of axe 170 mm (6 3/4"). Copies with both straight and curved edges.

**Short Tool Jig**  
For straight shanked carving gouges and V-tools down to 45 mm (1 7/8") length. Short wood chisels and tools for power carvers. Max tool width 38 mm (1 1/2").

**Gouge Jig**  
For fingermill shaped turning gouges of any geometry and turning cutters. Also for bent carving gouges, V-tools and violin making knives. Max tool width 36 mm (1 3/8").

**Multi Jig**  
For turning skew chisels, parting and beading tools and roughing gouges. Straight carving gouges up to 50 mm (2") width.

**Tool Rest**  
For turning scrapers, hollowing tools and thin parting tools. Also for cabinet scrapers, screwdrivers and spoke shave blades.

**Planer Blade Attachment**  
For blades of any length. Blades longer than 270 mm (10 5/8") are relocated in the blade holder. Min width of blade 13 mm (1/2").

**Moulding Knife Attachment**  
For all makes and shapes moulding knives with 24, 30 or 38 mm distance between gouge centres. Max hole centre of blade 100 mm (4").

**Drill Bit Attachment**  
Sharpens drill bits to 4-flute point. Can be set at any angle between 90° and 150°. The optimal clearance angle can be set for each drilling operation. Drill size 3-22 mm (1/8"-7/8").

## CAST FRAME FOR MAXIMUM PRECISION

# Get top results with a real sharpening system

## TORMEK T-8

### Universal Support

- For vertical or horizontal mount.
- Micro adjust with scale for each 0.25 mm (0.01").

Leather Honing Wheel

Square Edge Jig

Safety Stop

Tormek Original Grindstone

Developed to combine efficient steel removal, smooth surface finish and long life. 220 grit. Can be graded with SP-650 for a 1000 grit surface.

Stainless Steel Shaft with EzyLock

Easy and instant locking and unlocking by hand.

Advanced Water Trough with screw lift, magnet, water chute and scraper

Built-in magnet for swarf collection and attachable chute to catch every drip.

**THE MOST ADVANCED WATER COOLED SHARPENING SYSTEM AVAILABLE** allows you sharpen your tools to the finest edge. Tormek's innovative sharpening system has come to be appreciated worldwide for its unbeatable versatility, accuracy and ease of use. T-8 maximises the precision thanks to the revolutionary fully cast housing which guarantees minimal play for the Universal support. This gives you the best conditions possible to succeed with your sharpening.

Tormek's unique drive system is efficient and manages to hold a constant speed, even under full load. The Tormek Original Grindstone sharpens all qualities of steel, including HSS. The machine features a number of elaborated details, like instant stone locking with EzyLock, water trough with lift and a removable magnet scraper for efficient cleansing. ### Dimensions

Width 270 mm (10 5/8")  
Depth 270 mm (10 5/8")  
Height 330 mm (12")

### Weight

Shipping weight 18.2kg (40.1 lbs)  
Machine only 14.8kg (32.6 lbs)

### Grindstone

Tormek Original Grindstone SG-250, Aluminium oxide 0.250 x 50 mm (10" x 2") 90 grit, torque 14.7 Nm

### Leather Honing Wheel

0.220 x 31 mm (8 5/8" x 1 1/4")

Stainless steel main shaft, stone hardware and EzyLock.

### Main Shaft

Zinc cast top and frame. Sides in ABS plastic.

### Housing

Zinc cast top and frame. Sides in ABS plastic.

### Motor

Industrial single phase 200 W (input) 230 V, 50 Hz or 115 V, 60 Hz, Continuous duty Maintenance free

Slent running, 54 dB

25,000 hour life

**7 YEAR WARRANTY**  
THE ORIGINAL MADE IN SWEDEN

## Included with the Tormek T-8

**Square Edge Jig**  
For plane soles and wood chests. Max tool width 77 mm (3"), max tool thickness 9 mm (3/8"). Safety stops prevent the tool from slipping off the stone.

**Truing Tool**  
Trues the grindstone evenly round and flat. Guided by the Universal Support, which also guides the jigs. Dual knobs for smooth feed across the stone. Now in cast zinc for improved precision.

**Stone Grader**  
The fine side grades the stone for a 1000 grit finish. The coarse side of the grader reverses the stone to normal fast grinding. Activates a glazed stone.

**AngleMaster**  
Sets and measures the edge angle. Adjustable to any stone diameter from 0.250 mm (10") down to 0.150 mm (5/8"). Measures from 10° to 75°. Magnets keep it in place.

**Honing Compound**  
For application on the leather honing wheels. Grain size 3 micron (average). Removes the burr and polishes the edge to a mirror finish.

Oil for the Honing Wheel is included + Owner's Handbook and DVD.

## Optional Accessories

**Small Knife Holder**  
Enables you to sharpen the smallest knife blades like carving knives and pocket knives. Works in conjunction with the SVM-45 jig.

**Turning Tool Setter**  
Replicates the geometry on turning gouges and skewers when using the SVD-186 R and SVD-50 jigs. With built in edge geometries.

**Profilled Honing Wheels**  
For the inside honing and polishing of turning carving gouges and V-tools. Set of two discs, one with a 3 mm (1/8") radius and one with a 60° tip.

For narrow tools complement with LA-124 with 2 mm (3/16") radius and a 45° tip.

**Machine Cover**  
For guarding the machine from shavings and wood dust. 100% cotton.

**Rotating Base**  
Enables you to easily rotate the machine 180° and lock it with complete stability. It makes it easy to alternate between sharpening/honing or sharpening towards or away from the edge. Fits models: T-8, T-7, T-4, T-3, 2000 and 1200.

## TORMEK T-4

**TORMEK T-4** is a further development of the T-3 model taking the precision and stability to a completely new level. Vital functions like the motor and the main shaft are mounted in the zinc cast top which includes the integral sleeves for the Universal Support. This advanced design ensures an unbeatable precision for the Universal Support, which is the foundation of the Tormek jig system.

You get a high quality machine ideal for home and hobby work which can sharpen all the common edge tools. Delivered with the Stone Grader SP-650, AngleMaster WM-200, Honing compound, DVD and the comprehensive Tormek Handbook on sharpening. Complement the T-4 with your choice of jigs according to the tools that you are to sharpen. (The jigs are sold separately).

### Dimensions

Width 230 mm (9 1/8")  
Depth 200 mm (7 7/8")  
Height 260 mm (10 1/4")

### Weight

Shipping weight 9.8 kg  
Machine only 8.0 kg

### Grindstone

Tormek Original Grindstone  
Aluminium oxide  
0.230 x 40 mm (8" x 1 1/4")  
120 rpm, torque 8.4 Nm

Leather Honing Wheel  
0.145 x 26 mm (5 7/8" x 1")

### Main Shaft

Stainless steel main shaft and stone hardware. EzyLock in composite.

### Housing

Zinc cast top  
Impact resistant ABS plastic

### Motor

Industrial single phase  
120 W (input)  
230 V, 50 Hz or 115 V, 60 Hz  
Duty 30 min/hour  
Maintenance free

Slent running, 54 dB

10,000 hour life

**7 YEAR WARRANTY**

## Special Grindstones

### Blackstone Silicon SB-250

Tormek Blackstone delivers faster steel removal on HSS and other exotic alloys than Tormek Original Grindstone. Suitable for tools with large bevel area. It can also touch up carbide. 220 grit.

**Japanese Waterstone SJ-250 and SJ-200**  
This stone provides an extra fine surface finish on hand tools where a minimum of steel removal is needed. Ideal for carving tools. 4000 grit.

Available in two sizes, 250 mm (for T-8, T-7 and 2000 models) and 200 mm (for T-4, T-3 and 1200 models). Since it is made to create the finest surface, it has a limited steel removal capacity and cannot be used for shaping a tool.

## TS-740 Sharpening Station

Top quality sharpening cabinet with purpose designed drawers to fit the Tormek accessory kits. Convenient storage for all the jigs and accessories needed for sharpening all kinds of edge tools. Sturdy steel design with scratch resistant metallic coating, rounded corners and Tormek logo. Fits easily into your workshop and you will be able to adjust to your ideal working height. Height 750-830 mm (29½"-32½"), width 578 mm (22½"), depth 390 mm (15½").

• Rubber Work Mat RM-533 see below.

• Scratch resistant metallic surface

• Holes for hooks (Two hooks are included)

• Rubber feet to protect the floor

• Fully extendable drawers to fit Tormek kits

• Auto-return soft close drawer function

• Aluminium handles

• Adjustable legs for comfortable working height

• Rubber Work Mat

• With the Tormek Rubber Work Mat you get a water proof yet non slip surface. The raised rim will retain any water spillage. 533x343mm (21"x13½").

## Diamond Wheels Accessories

**Multi Base**  
With the Multi Base MB-100, you can sharpen on the side of the Tormek Diamond Wheels, thus creating a completely flat bevel that is preferable in some applications. The MB-100 has an adjustment line that allows you to fix the sharpening position based on the optimal setting for each tool and jig. For convenience, it can be mounted either vertically or horizontally.

The MB-100 can be used with the Tormek jigs: SVM-45 Knife-Jig, SVM-140 Long Knife-Jig, SVM-60 Small Knife Holder, SVM-150 Scissors-Jig, SVM-170 Axe-Jig, SVM-38 Short Tool-Jig, SVM-180 P-Gauge-Jig, SVM-50 Multi-Jig, SE-77 Square Edge-Jig and SVM-110 Tool Rest.

**Anti-Corrosion Concentrate**  
Makes water non-corrosive. Always use with Tormek diamond wheels. Can also be used with grindstones. Each package includes 2x150 ml.

## Reviews

Some people have never experienced using a truly sharp tool, but when they do, they will find it takes less force to cut and it cuts so cleanly that the savings in abrasives alone are significant. Because Tormek regularly improves its system, that's the brand I selected. Try wet sharpening; like me, you will be amazed how much better your turning experience is.

Terry Martin  
American Woodturner, USA

I have yet to find anything that cannot be sharpened on the Tormek. The honed edge is incredibly fine, and coupled to this dramatic improvement in edge quality is the not insignificant fact that the tools will last far longer, as the sharpening process is so much less aggressive. I am now a total convert to the wet grinding system. It really is Touch and Turn, but you touch far less often and turn far more!

Alan Holtham  
The Woodworker, UK

Buying a Tormek is a safe investment in quality and performance. You will never have to put up with dull tools ever again!

Wolfgang Hess,  
Tormek Sweden

## NEWS!

### Jig and Accessory Kits

New Tormek Case included!

#### HTK-806 Hand Tool Kit

This kit is ideal for sharpening hand tools around the workshop and home. Contains: Knife Jig SVM-45, Small Knife Holder SVM-60, Long Knife-Jig SVM-140, Scissors-Jig SVM-150, Short Tool-Jig SVM-38, Axe-Jig SVM-170, Tormek Case TC-800 and Storage Tray HTK-00.

#### TNT-806 Woodturner's Kit

A comprehensive kit for the woodturner. Contains: Gauge Jig SVM-186 R, Multi-Jig SVM-50, Tool Rest SVM-110, Turning Tool TTS-100, Profled Honing Wheel LA-120, Machine Cover MH-380, TNT-300 DVD, manual, Tormek Case TC-800 and Storage Tray HTK-00.

### Tormek Diamond Wheels

#### Diamond Wheel Coarse DC-250

For efficient grinding of all types of material, incl. steel, ceramic and carbide. Rapidly repairs a dull or damaged edge. 360 grit.

#### Diamond Wheel Fine DF-250

For fine surface finish on all types of edge tools. Combines efficient steel removal with smooth surface finish.

For all types of material, incl. steel, ceramic and carbide. 600 grit.

#### Diamond Wheel Extra Fine DE-250

For extra fine surface finish. Sharpens all types of material, incl. steel, ceramic and carbide. Ideal for knives and carving tools, where a minimum of steel removal is needed. 1200 grit.

Included with every diamond wheel is 150 ml ACC-150 Anti-Corrosion Concentrate. Tormek Diamond Wheels are EU Design Protected ©.

**TORMEK**  
Sharpening Innovation

**TORMEK**

### ✓ Sharpen all your edge tools

With the wide range of Tormek patented jigs, you can sharpen practically all types of edge tools. Tormek is dedicated to developing water cooled sharpening through innovative solutions!

### ✓ Exact replication

The key word when sharpening the Tormek way is repeatability. You can shape the tool exactly to your needs. Even complicated shapes such as fingernail turning gouges, spoon carving gouges and oval skew chisels with a radius edge are easily sharpened.

### ✓ Cleanest edges

You finish the sharpening process by honing and polishing the edge on the leather honing wheel. You get a razor sharp edge.

### ✓ Fast sharpening

Once the shape is created, you remove only a fraction of the steel when re-sharpening, which makes it a quick job.

### ✓ Full control

At the low speed, you have full control of the sharpening and remove no more steel than necessary. An extra benefit is that your tools last longer.

### ✓ No risk of overheating

There is no risk that the edge becomes overheated and loses its hardness.

### ✓ Safe and quiet

Worn steel particles are deposited into the water trough, keeping the air clear of grinding dust. No sparks are produced that can be a fire hazard in workshops with a lot of wood dust. You will also find that the Tormek runs surprisingly quiet.

### ✓ Quality and performance

Buying a Tormek is a safe investment in quality and performance with a 7-year warranty.
